

Features

- **Secure System**
- **Multiple Users**
- **Multiple PC Workstations**
- **Image, Plan or Text Displays**
- **Simple Navigation and Control**
- **Current Event List**
- **In-Depth History Analysis**
- **Integrates with ZX Series Panels**
- **Windows XP, 2000 Compatible**
- **Choice of Specification**

Overview

Visualeyez is a pictorial and textual aid to help you manage an alarm activation within your work place. It can be programmed to suit any application including: Hospitals, Universities, Prisons, Hotels, Industrial and Commercial buildings. In an emergency both information and control are paramount, without knowing what has occurred and where it happened it is difficult to provide effective resolution of the situation. Visualeyez is designed to present the information in a simple clear and user friendly way allowing rapid comprehension of the situation.

In addition to the basic function of displaying alarms at a common location the system also offers the ability to record and analyze both alarms and non-alarm events. Providing the building's engineers or management with the tools they need to analyze alarms, faults, review events, assess problems and plan their maintenance and false alarm prevention strategies.

visualeyez

Alarm Management System

Data Sheet

Installation

The system is available in a number of standard configurations providing a cost effective solution for particular applications, with existing configurations suitable for simple upgrading. All Visualeyez programs have been developed to work within current Windows operating systems software (Windows XP, 2000 compatible).

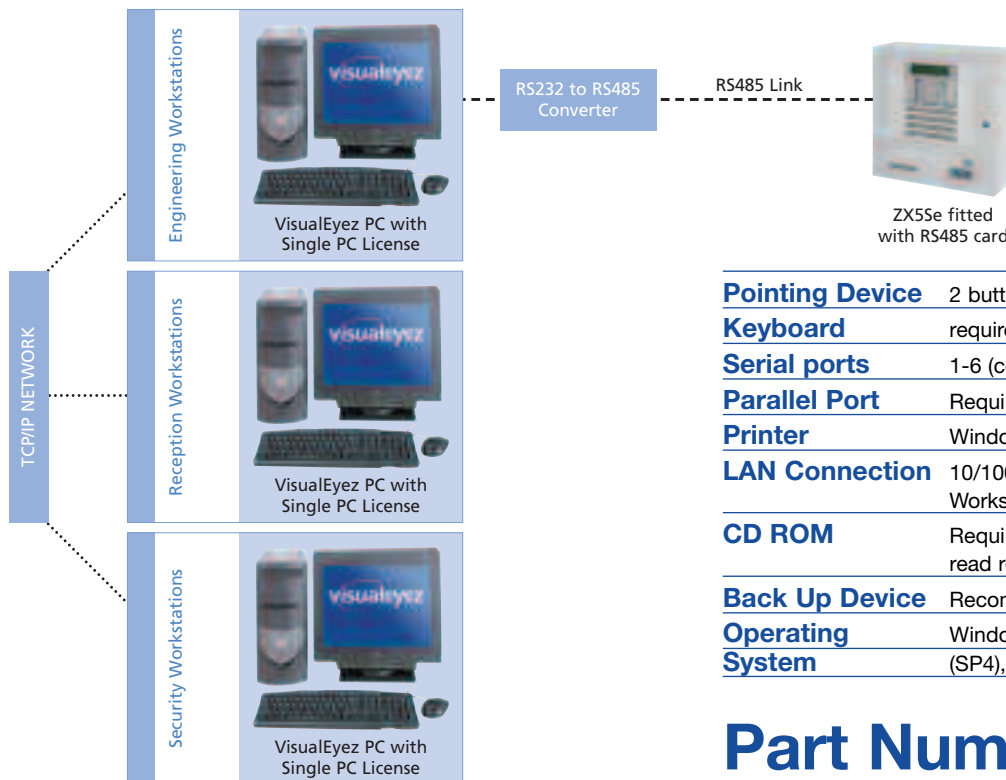

Fire panel compatibility, seamless integration with the ZX range of fire alarm control panels is easily achieved, simplifying set-up and programming thereby reducing commissioning costs. Communication between the fire alarm control panel and PC is constantly monitored providing instant warning of a possible systems fault.

by Honeywell

Typical Installation

Pointing Device	2 button mouse.
Keyboard	required.
Serial ports	1-6 (configuration dependant)
Parallel Port	Required for Hardware key.
Printer	Windows compatible (Optional)
LAN Connection	10/100 Mps (required for Multiple Workstations).
CD ROM	Required for software installation, min 4x read recommended.
Back Up Device	Recommended.
Operating System	Windows 200 (SP4), XP Professional (SP2).

PC Specification

Processor	Intel Pentium or equivalent, 2GHz.
Memory	512mb minimum.
Disk space	20Gb minimum.
Graphics card	1024x768 (XGA), 16 million colours.
Monitor	XGA or higher, >80Hz refresh rate.
Sound Card	Windows compatible.
Loudspeakers	Compatible with windows sound card.

795-088-100	VisualEyez (Basic Edition). PC Based Mimic display. [For connection to a single network of up to 10 panels maximum].
795-088-200	VisualEyez (Standard Edition) [For connection to a single network of up to 10 panels maximum. Single Workstation License only].
795-088-210	VisualEyez (Standard Edition + Groups) [For connection to a single network of up to 10 panels maximum. Single Workstation License for Multiple Workstation System].
795-088-300	VisualEyez (Premium Edition) [For connection to a single network of up to 99 panels maximum. Single Workstation License only].
795-088-310	VisualEyez (Premium Edition+ Groups) [For connection to a single network of up to 99 panels maximum. Single Workstation License only for Multiple Workstation System].

Fire System Compatibility

Morley-IAS is fully committed to offering practical solutions and supporting products that enhance your buildings control systems.

Other Supporting Products Include

- Morley-IAS Intelligent Public Address and Voice Alarm Equipment
- Morley-IAS ZX range of networkable analogue addressable Fire Alarm Panels
- Morley-IAS Dimension Analogue Addressable Panels
- Morley-IAS Horizon Conventional Panels
- Morley-IAS Extinguishing Panels

For further details on these or any other Morley-IAS product please contact your local distribution point, Morley-IAS Regional Sales Manager or via our contact details.

Morley-IAS by Honeywell a real choice for fire solutions, committed to supporting our device partners.
